IN RE: PRESENTATION -- RECYCLING INDUSTRY

Mr. Barry Funnell and Mr. Ted Baxter of Virginia Bio-Fuel Corporation gave a public presentation on a composting operation which they propose would be located on the site of the Dinwiddie County Landfill. This operation would accept and compost a portion of the waste stream now being placed in the landfill.

Several citizens were present and asked questions concerning the proposed process. The County Administrator explained that no decision has been made and this presentation was specifically to provide information for the public.

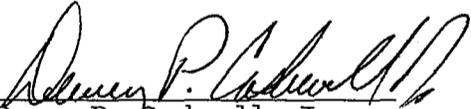

It was suggested that a citizen representation which includes members of the recycling committee be included in any site visits where this type of operation is located.
