County Recognizes Achievement of Master Municipal Clerk Certification

DINWIDDIE, VA - Dinwiddie County is pleased to announce that Mrs. Camisha Brown, Executive Assistant to the County Administrator and Clerk to the Board of Supervisors, has earned the Master Municipal Clerk (MMC) certification from the International Institute of Municipal Clerks (IIMC).

Mrs. Brown has served the County in her current role since January 2021, providing administrative and professional support to the County Administrator and the Board of Supervisors. Her achievement reflects a significant milestone both in her professional career and in the County's history.

The MMC is the highest professional designation offered by the IIMC and recognizes advanced education, professional achievement, and the ability to perform complex municipal clerk duties. Mrs. Brown completed her Certified Municipal Clerk (CMC) designation in January 2024 and earned her MMC certification in November 2025.

"This achievement reflects Camisha's dedication to professionalism and public service," said County Administrator W. Kevin Massengill. "Her commitment to continued education strengthens the work of the Board and enhances services to our citizens."

Mrs. Brown is one of only 39 clerks in Virginia to hold the MMC designation, the only clerk in Virginia Municipal Clerk Association's Region 9 to do so, and the first clerk in Dinwiddie County history to earn the Master Municipal Clerk certification.

Dinwiddie County congratulates Mrs. Brown on this outstanding professional achievement.
