AGREEMENT IN LIEU OF AN EROSION AND SEDIMENT CONTROL PLAN FOR SINGLE FAMILY DETACHED RESIDENCE

I hereby understand that in lieu of submission of an Erosion and Sediment Control (E&S) Plan, I agree to comply with the Dinwiddie County's Erosion and Sediment Control Program. These requirements are based on the conservation standards contained in the Dinwiddie County Erosion and Sediment Control Ordinance and shall represent the minimum practices necessary to provide adequate control of erosion and sedimentation resulting from this project.

As a minimum, I understand the following measures must be addressed:

All denuded areas on the lot shall be stabilized within seven (7) days of final grading with permanent vegetation or a protective ground cover suitable for the time of year. If an area is not of final grade but is to be left bare for more than fourteen (14) days, the area shall be temporarily seeded.

Silt fencing shall be properly installed downhill from any and all disturbed areas and around all soil stockpiles.

If culverts or inlets are in the vicinity of the work, inlet and/or outlet protection must be provided.

Construction Entrances consisting of VDOT #21B shall be installed at the access point of any existing public or private right-of-way. Construction Entrances need to be a minimum of 10 feet in width, 30 feet in length and 6 inches in depth.

A designated Certified Responsible Land Disturber (CRLD) must be onsite during land disturbance activities when the work exceeds 10,000 square feet. If discovered that greater than 10,000 square feet has been disturbed without the presence of a CRLD, a "Stop Work Order" will be issued immediately. No land disturbing activity on the property will be allowed until the assigned CRLD is present. If applicant refuses to comply then action will be pursued.

Initial: _____

I understand that periodic site inspections can and will be made by the Dinwiddie County Environmental Inspector to ensure that all E&S measures have been implemented and are adequately functioning. Failure to comply with such requirements within a specified deadline following notice by the Environmental Inspector could result in a citation for violation of the Dinwiddie County Erosion and Sediment Control Ordinance (Sec. 9-8).

I will not proceed with clearing of the lot until authorized to do so by the Environmental Inspector. I acknowledge that I am subject to the imposition of civil penalties in the amount up to \$1,000.00 a day, not to exceed \$10,000.00 for commencement of clearing prior to the Environmental Inspector's authorization per (Sec. 9-20) of the Dinwiddie County Erosion and Sediment Control Ordinance.

I am aware that the building permit is the land disturbance permit and any clearing, other than required to install E&S controls, or building construction will not proceed until satisfactory implementation of the E&S measures as shown on the provided sketch has been verified by field inspection by the Environmental Inspector.

PROJECT INFORMATION:

Property Address or Location:_____

Type of Project:	Single Family Dwelling	Land Clearing
	Detached Bldg.	Bldg. Addition
	Other	

Area (Sq.Ft.) to be disturbed:_____ (Includes house and any other disturbance on the lot)
(If disturbing greater than 10,000 sq.ft., a Certified Responsible Land Disturber **must** be identified)

All erosion control measures are to be installed prior to any land disturbing activity.

The Environmental Inspector shall notify the owner/contractor of any E&S violations and identify corrective action(s) and a date at which these violations are to be corrected.

In place of an Erosion and Sediment Control Plan for the construction of this single-family detached residential structure, I agree to comply with the requirements of this "Agreement in Lieu of" (or other requirements as established by the Environmental Administrator of Dinwiddie County when necessary) to ensure compliance with the applicable Virginia Erosion and Sediment Control Program (VESCP) Regulation.

I fully understand that not complying may result in the revocation of this "Agreement in Lieu of" and that the submission of a project-specific Erosion and Sediment Control Plan in accordance with 9VAC25-840-70 of the VESCP Regulations may be required.
