## PUBLIC SERVICE ANNOUNCEMENT

November 29, 2022

### Recycling Program

As we enter the holiday season, Dinwiddie County's Department of Public Works would like to remind citizens of recycling options currently available.

In February 2020, the County announced changes to its recycling program and provided a list of items accepted at manned convenience sites and the County Landfill. This list is as follows:

- Cardboard**
- Motor Oil**
- Vegetable Oil (Landfill only)**
- Batteries**
- Aluminum cans**
- Metal**
- Clothing**

Dinwiddie County is not currently able to accept plastic or glass for recycling. Please include these items with your household trash.

If you have questions, regarding the County's recycling program or practices, please contact the Department of Public Works at 804-469-4545.
